

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): A method of providing a streak game, comprising:  
receiving a first streak wager on a first streak round from a single player and a second streak wager on a second streak round from said single player and displaying a representation of the first and second streak wagers, wherein the first streak wager is associated with the first streak round having a selected first number of consecutive main rounds and a selected type of outcome for each main round and the second streak wager is associated with the second streak round having a selected number of consecutive main rounds and a selected type of outcome for each main round;

receiving an outcome of a current main round;

determining whether the received outcome is identical to the selected type of outcome for the main round for the first streak round;

determining whether the received outcome is identical to the selected type of outcome for the main round for the second streak round;

tracking the number of received consecutive outcomes that are identical to the selected type of outcomes for the main round for the first streak round; and

tracking the number of received consecutive outcomes that are identical to the selected type of outcome for the main round for the second streak round, where the tracking for the first streak round is performed separately from the tracking from the second streak round.

Claim 2 (original): The method of claim 1, further comprising:  
indicating an end to the first or second streak round.

Claim 3 (original): The method of claim 1, wherein:  
receiving the first streak wager does not include receiving a wager for the main round.

Claim 4 (original): The method of claim 1, wherein:  
displaying a representation of the first and second streak wagers indicates a point value of the wagers.

Claim 5 (original): The method of claim 1, wherein:  
displaying a representation of the first and second streak wagers indicates a monetary value of the wagers.

Claim 6 (currently amended): The method of claim 1, wherein:  
receiving a third streak wager on a third streak round from said single player and displaying a representation of the third streak wager, wherein the third streak wager is associated with the third streak round having a selected third number of consecutive main rounds and a selected type of outcome for each main round.

Claim 7 (original): The method of claim 6, wherein:  
the third streak wager is received before the first or second streak rounds have ended, wherein the first or second streak rounds have ended when either, after the first or second streak wager has been made, a non-selected outcome occurs or the first or second number of consecutive main rounds equals the number of consecutive main rounds that have ended with a corresponding selected outcome.

Claim 8 (original): The method of claim 6, wherein:  
the third selected number is equal to the first selected number.

Claim 9 (original): The method of claim 1, wherein:  
more than one streak round is associated with a single main round.

Claim 10 (currently amended): The method of claim 1, further comprising:  
determining a payout for the single player based on the first or second selected number of consecutive main rounds.

Claim 11 (original): The method of claim 10, wherein:  
the payout is determined based on a multiplier associated with the first or second selected number of consecutive main rounds.

Claim 12 (previously presented): The method of claim 1, wherein:  
tracking the number of received outcomes that are identical to the selected outcomes for the first and second streak rounds includes moving the representation of the first or second streak wager to a new position.

Claim 13 (previously presented): The method of claim 1, wherein:  
tracking the number of received outcomes that are identical to the selected outcomes for the first and second streak rounds includes changing an element of the representation.

Claim 14 (previously presented): The method of claim 1, wherein:  
tracking the number of determined outcomes that are identical to the selected outcomes for the first streak round includes:  
displaying a graph that indicates a ratio of the main rounds having had an outcome that is identical to the selected outcome for the first streak round to the selected number of main rounds that make up the first streak round; and  
updating the graph to show a new ratio.

Claim 15 (original): The method of claim 1, wherein:  
displaying the representation including displaying the representation electronically.

Claim 16 (original): The method of claim 1, wherein:

a first main round has had at least one outcome after the first streak wager is received and the second streak wager is received after the outcome of the first main round and before the end of the first streak round.

Claim 17 (previously presented): The method of claim 1, wherein:

the selected first streak combination is identical to the second streak combination; and

a first main round has had at least one outcome after the first streak wager is received and the second streak wager is received after the outcome of the first main round and before the end of the first streak round.

Claim 18 (currently amended): A method of providing a streak game, comprising:

receiving a first streak wager associated with a first streak round from a single player and displaying a representation of the first streak wager, wherein the first streak wager specifies a first selected number of consecutive main rounds and a selected outcome of each main round;

receiving a second streak wager associated with a second streak round from said single player and displaying a representation of the second streak wager, wherein the second streak wager specifies a second selected number of consecutive main rounds and the selected outcome of each main round;

receiving an outcome of a main round;

determining whether the received outcome is identical to the selected outcome for the first streak round;

determining whether the received outcome is the same as the selected outcome for the second streak round;

if the determined outcome is identical to the selected outcome for the first or second streak round; moving the representation of the first or second streak wager; and

when the number of received outcomes that are identical to the selected outcomes of the first streak round equals the selected number of consecutive main rounds that make up the streak round, indicating an end to the first streak round.

Claim 19 (canceled).

Claim 20 (previously presented): The method of claim 18, wherein:

the first streak wager is received before receiving the outcome of the main round and the second streak wager is received after receiving the outcome of the main round.

Claim 21 (previously presented): The method of claim 20, wherein:

the first and second selected number of consecutive main rounds are equal and the first and second streak rounds are in play during a single main round.

Claim 22 (currently amended): An apparatus comprising:  
at least one display device ~~operable~~ configured to display an image associated  
with a game, the game being operable upon:

- (a) at least one game wager receivable ~~by~~ from a single player, and
- (b) a plurality of side wagers which are receivable ~~by~~ from the single player;

at least one memory device which stores a plurality of instructions; and  
at least one processor ~~operable~~ configured to execute the instructions to:

- (a) cause the at least one game wager to be received from the single player,
- (b) cause a plurality of the side wagers to be received from the single player,
- (c) enable a plurality of consecutive plays of the game by the single player,
- (d) provide a first award in response to the consecutive plays resulting in a plurality of identical first outcomes, the first award being based on a first one of the side wagers, and
- (e) provide a second award in response to the consecutive plays resulting in a plurality of identical second outcomes, the second award being based on a second one of the side wagers.

Claim 23 (previously presented): The apparatus of claim 22, further comprising:  
a representation indicating any occurrences of: (a) the identical first outcomes;  
and (b) the identical second outcomes during the consecutive plays of the game.

Claim 24 (canceled).

Claim 25 (original): The apparatus of claim 23, wherein:  
the representation includes a chip.

Claim 26 (original): The apparatus of claim 23, wherein:  
the representation includes a game piece.

Claim 27 (currently amended): The apparatus of claim 23, wherein:  
the representation identifies a single player.

Claim 28 (canceled).

Claim 29 (canceled).

Claim 30 (canceled).

Claim 31 (previously presented): The apparatus of claim 23, wherein:  
the representation includes: (a) a first a number of positions which are sequentially indicatable, the first number of positioned being associated with the first award; and (b) a second number of positions which are sequentially indicatable, the second number of positions being associated with the second award.

Claim 32 (previously presented): The apparatus of claim 31, wherein:  
the first number of positions are linearly aligned.

Claim 33 (previously presented): The apparatus of claim 31 wherein:  
the first number of positions are aligned along an arc.

Claim 34 (previously presented): The apparatus of claim 23 wherein:  
the representation includes at least one graph or chart.

Claim 35 (previously presented): The apparatus of claim 34 wherein:  
the at least one graph includes a bar graph.

Claim 36 (previously presented): The apparatus of claim 34 wherein:  
the at least one chart includes a pie chart.

Claim 37 (previously presented): The apparatus of claim 31 wherein:  
the representation includes an electronic display and each one of the first  
number of positions is a part of an image.

Claim 38 (currently amended): An apparatus comprising:  
at least one display device; ~~operable to display:~~  
at least one memory device which stores a plurality of instructions; and  
at least one processor configured to execute the instructions to control the  
display device to display:

- (a) a game image associated with a game operable upon at least one  
wager by a single player,
- (b) at least one additional image which indicates:
  - (i) an occurrence of any first streak outcomes achieved by the  
single player during a plurality of consecutive plays of the  
game, and
  - (ii) an occurrence of any second streak outcomes achieved by  
the single player during the plurality of consecutive plays of  
the game;

~~at least one memory device which stores a plurality of instructions; and~~  
~~at least one processor operable to execute the instructions to control the display~~  
~~device.~~

Claim 39 (currently amended): A computer program storage device ~~on a computer readable medium~~ for providing a streak game, the computer program storage device comprising:

a data storage medium storing a plurality of instructions, which when executed by at least one processor, to cause a computer system to:

- (a) receive a first streak wager on a first streak round from a single player;
- (b) receive and a second streak wager on a second streak round from said single player; and
- (c) display a representation of the first and second streak wagers, wherein:
  - (i) the first streak wager is associated with:
    - (x) the first streak round having a selected first number of consecutive main rounds; and
    - (y) a selected type of outcome for each main round; and
  - (ii) the second streak wager is associated with:
    - (x) the second streak round having a selected number of consecutive main rounds; and
    - (y) a selected type of outcome for each main round;
- (d) receive an outcome of a current main round;
- (e) determine whether the received outcome is identical to the selected type of outcome for the main round for the first streak round;
- (f) determine whether the received outcome is identical to the selected type of outcome for the main round for the second streak round;
- (g) track the number of received consecutive outcomes that are identical to the selected type of outcomes for the main round for the first streak round; and
- (h) track the number of received consecutive outcomes that are identical to the selected type of outcome for the main round for the second streak round, where the first streak round is tracked separately from the second streak round.

Claim 40 (currently amended): The computer program storage device of claim 39 further comprising instructions to cause a computer system to:

indicate an end to the first or second streak round, including paying the single player.

Claim 41 (previously presented): The computer program storage device of claim 39 wherein the instructions to receive the first streak wager do not include instructions to cause a computer system to receive a wager for the main round.

Claim 42 (currently amended): The computer program storage device of claim 39 wherein the instructions to display a representation of the first and second streak wagers include instructions executable ~~operable~~ to cause a computer system to:

indicate a point value of the wagers.

Claim 43 (currently amended): The computer program storage device of claim 39 wherein the instructions to display a representation of the first and second streak wagers include instructions executable ~~operable~~ to cause a computer system to:

indicate a monetary value of the wagers.

Claim 44 (currently amended): The computer program storage device of claim 39 further comprising instructions executable ~~operable~~ to cause a computer system to:

receive a third streak wager on a third streak round from said single player and display a representation of the third streak wager, wherein the third streak wager is associated with the third streak round having a selected third number of consecutive main rounds and a selected type of outcome for each main round.

Claim 45 (previously presented): The computer program storage device of claim 44 wherein:

the third streak wager is received before the first or second streak rounds have ended, wherein the first or second streak rounds have ended when either, after the first or second streak wager has been made, a non-selected outcome occurs or the first or second number of consecutive main rounds equals the number of consecutive main rounds that have ended with a corresponding selected outcome.

Claim 46 (previously presented): The computer program storage device of claim 45 wherein:

the third selected number is equal to the first selected number.

Claim 47 (previously presented): The computer program storage device of claim 39 wherein:

more than one streak round is associated with a single main round.

Claim 48 (currently amended): The computer program storage device of claim 39 further comprising instructions executable operable to cause a computer system to:

determine a payout for the single player based on the first or second selected number of consecutive main rounds.

Claim 49 (previously presented): The computer program storage device of claim 48 wherein:

the payout is determined based on a multiplier associated with the first or second selected number of consecutive main rounds.

Claim 50 (currently amended): The computer program storage device of claim 39 wherein the instructions to track the number of received outcomes that are identical to the selected outcomes for the first and second streak rounds includes instructions executable operable to cause a computer system to:

move the representation of the first or second streak wager to a new position.

Claim 51 (currently amended): The computer program storage device of claim 39 wherein the instructions to track the number of received outcomes that are identical to the selected outcomes for the first and second streak rounds includes instructions executable ~~operable~~ to cause a computer system to:  
change an element of the representation.

Claim 52 (currently amended): The computer program storage device of claim 39, wherein the instructions to track the number of received outcomes that are identical to the selected outcomes for the first and second streak rounds includes instructions executable ~~operable~~ to cause a computer system to:

display a graph that indicates a ratio of the main rounds having had an outcome that is identical to the selected outcome for the first streak round to the selected number of main rounds that make up the first streak round; and  
update the graph to show a new ratio.

Claim 53 (currently amended): The computer program storage device of claim 39, wherein the instructions to display the representation includes instructions executable ~~operable~~ to cause a computer system to:  
display the representation electronically.

Claim 54 (currently amended): A computer program storage device—~~on a computer-readable medium~~ for providing a streak round, the computer program device comprising:

a data storage medium storing a plurality of instructions, which when executed by at least one processor, to cause a computer system to:

receive a first streak wager associated with a first streak round from a single player and display a representation of the first streak wager, wherein the first streak wager specifies a first selected number of consecutive main rounds and a selected outcome of each main round;

receive a second streak wager associated with a second streak round from said single player and display a representation of the second streak wager, wherein the second streak wager specifies a second selected number of consecutive main rounds and the selected outcome of each main round;

receive an outcome of a main round;

determine whether the received outcome is identical to the selected outcome for the first streak round;

determine whether the received outcome is identical to the selected outcome for the second streak round;

if the determined outcome is identical to the selected outcome for the first or second streak round, move the representation of the first or second streak wager; and

when the number of received outcomes that are identical to the selected outcomes of the first streak round equals the selected number of consecutive main rounds that make up the first streak round, indicate an end to the first streak round.

Claim 55 (canceled).

Claim 56 (previously presented): The computer program storage device of claim 54, further comprising instructions to cause a computer system to:

receive the first streak wager before receiving the outcome of the main round and receive the second streak wager after receiving the outcome of the main round.

Claim 57 (previously presented): The computer program storage device of claim 54, wherein:

the first and second selected number of consecutive main rounds are equal and are the first and second streak rounds are in play during a single main round.

Claim 58 (previously presented): The computer program storage device of claim 39, wherein:

a first main round has had at least one outcome after the first streak wager is received and the second streak wager is received after the outcome of the first main round and before the end of the first streak round.

Claim 59 (previously presented): The computer program storage device of claim 39, wherein:

the selected first streak combination is identical to the second streak combination; and

a first main round has had at least one outcome after the first streak wager is received and the second streak wager is received after the outcome of the first main round and before the end of the first streak round.
